

Bakker Event Services

Sound Wall

Do you want to protect your visitors ?

Is sound nuisance a threat for your event ?

Is your event stationed in a populated area or a nature reserve ?

Do you want to separate different area's and want to avoid sound 'clash' ?

Bakker Event Services

Sound Wall

The Sound Wall System is a unique Bakker Groep Coevorden Rental Item and indispensable for the event industry. Bakker Event Services is an entity of Bakker Groep Coevorden and focusses specifically on the event industry.

The 10 meter high Sound Wall can be applied at events and festivals to reduce the noise level. The Sound Wall has a height of 10 meters and ballast blocks of approximately 10.000kg. You can create a secure environment for the visitors with this Sound Wall by surrounding your event.

In any situation where noise reduction is required we can offer a complete full service solution. In our rental fleet we have a complete system consisting of 10 meter high Sound Walls. The Sound Wall can reduce noise levels to an acceptable level and will protect the direct environment of the event.

Bakker Event Services

Specifications:

- Modular system
- Panel width 2 or 2,5 meter
- Panels mounted on ballast blocks of 8000 or 10000kg
- Total height 10 meters
- Manual (5 meter width) or electrical (7.5 meter) operated roll up overhead door
- High level of stability, due to shoring.
